Databases
• MySQL
• MongoDB

Server-Side Development
• Express
• Security and Session Storage
• User Authentication
• MERN Stack (MongoDB, Express.js, React.js, Node.js)

Quality Assurance
• Writing Tests

Internet Marketing
• Semantic HTML

PROJECTS

Drink and Dine | https://github.com/moonlagoon/Drink-and-Dine | https://moonlagoon.github.io/Drink-and-Dine/

My role: **To design the project with Bootstrap and CSS | make Javascript functions**

Single-page web app for food and drink recipes. Apply one ingredient to review several recipes for quick ideas with what you have.

- Takes one recipe you apply and gives your various recipes for both food and drink.
- Utilizes Bootstrap, API, Firebase, and Jquery queries to create a live search and filter feature.
- Integrates food and drink API as an interactive component that functions as an ingredient-based filter.
